BREAKING NEW GROUND

Mining Technology Conference

Vertical Events *presents the*
**Premier Mining Technology
event in Australia.**

The conference will look at applications and investment in new technologies within the Mining Industry.

One Auditorium will showcase the latest technologies and include case studies of problems solved, using these new technologies.

A second Auditorium will focus on investment opportunities with established resources technology companies. It will also include venture capital opportunities.

This conference is a must for all involved in the resources technology arena.

When: 3-4 July, 2008

Where: Esplanade Hotel, Fremantle, Western Australia

Proposed topics:

- Information Technology
- Exploration
- Mining
- Processing
- Management
- Investment and Venture Capital

Delegates and Exhibitors

It is envisaged that delegates and exhibitors will come from IT professionals in the mining industry, Exploration Managers, Resident Mine Managers, Senior Geologists, Senior Engineers, Senior Metallurgists, Production Superintendants, Mining Industry Suppliers, Consultants, Mining Journalists, Mining Administration Managers etc.

I am interested in attending the conference as:

Delegate

Exhibitor

Presenter

Sponsor
