CHINA MINING CONGRESS 2005

The China Mining Congress 2005 will be held from November 14th - 17th at the Beijing International Convention Center.

The exhibition is designed to attract international cooperation in different fields such as exploration, development, investment and equipment technology and will offer a great networking environment for all attending the venue. Many Chinese and foreign government officials will once more be taking part, to make China Mining 2005 a not to miss international symposium.

This conference is now one of the leading resources conferences in the world and provides access to companies and government departments of one of the world's new mining superpowers.

Vertical Events is pleased to announce they have been chosen as the sole Australian Agent for the China Mining Congress 2005. Further to this Vertical Events will be co-ordinating a special Australian area at the Congress to focus on Australian resources companies and technology and service providers.

For further details about the conference or to register as a delegate please contact Doug Bowie (doug@verticalevents.com.au) on +61 8 9388 2222.'
