

(ASX:ACU) Activistic is a technology company which owns a micro-payments platform providing users with a simple means to make regular donations to charities and other fund raising organizations via their mobile phone. The initial micro-payment technology owned by Activistic includes a smart-phone application called 'One Cent Call' (App) to allow users to donate regular small amounts to any cause and region via their phone bill. Activistic has filed a patent application to cover the method of micro-payment collection utilising mobile phones and aims to market the business and App in the primary markets of the UK, USA and Australia.

Big Un Limited (ASX:BIG) is the parent company of Big Review TV Ltd. Big Review TV Ltd operate in the media and technology space providing online video content, video reviews and online marketing services to small and medium enter-prise through bigreviewtv.com. Bigreviewtv.com is a video review platform that integrates video review shows, video marketing, and user-generated video content with social media via the Big Review TV app. The Big Review TV App is a free video review mobile phone application that allows consumers to search and view video reviews of places of interest, and produce their own video reviews that upload automatically to Bigreviewtv.com and can be shared via social media networks. The app can also be used by merchants as a video marketing tool to communicate with customers via their business profile page on Bigreviewtv.com.

(ASX:BPS) BPS Technology Limited is a leading provider of technology platforms and management systems in the Currency Alternative space for Small to Medium Businesses (SMBs) through its three subsidiaries: Bartercard is recognised as the largest Barter Trade Platform in the world; TESS offers a cloud based software service to other Barter Trade Exchange operators; and buqji is a merchant centric mobile loyalty, rewards and payments application.

Collaborate Corporation Limited (ASX: CL8) is the only ASX listed company focused on exploiting multiple 'collaborative consumption', 'peer-to-peer' and 'sharing economy' opportunities. In the same way that Airbnb has shaken up the accommodation industry, Collaborate is disrupting the car rental, caravan and equipment markets by providing owners of assets to safely rent them to individuals and companies, turning idle assets into a source of revenue. Collaborate operates some of Australia's leading peer-to-peer businesses including DriveMyCar, MyCaravan and Rentoid and is exploring further peer-to-peer opportunities.

Covata (ASX:CVT). At a time when hacking, cyber crime and data security has never been more prominent, Covata enables true ownership and control over your data in the cloud and over mobile services. Delivering data-centric security solutions without compromising simple usability; providing true end-to-end security. Data is always protected wherever it may travel – inside a network, beyond the domain, to mobile devices and to the cloud – with granular access controls that extend to external ad hoc users, view-only restrictions, real time revocation and complete visibility and auditability.

(ASX:ERR) DateTix is a mobile and location-based social platform to meet new people for in person and on-demand dates at selected and verified local merchants. Our local online marketplaces connect members hosting dates with members browsing for dates across a diverse range of intentions (e.g. casual dating, serious relationships, marriage, friendship, business networking, activity partners) and occasions (e.g. lunch, dinner, drinks, movies, concerts, dancing, cultural and sporting events, trips and vacations). We have an asset-light and globally scalable business model with diverse revenue streams across the sale of virtual items, premium subscriptions, advertising and e-commerce. Our vision is to foster new human relationships of all kinds by building the world's largest online marketplace for dates.

(ASX:FLN) Freelancer.com is the world's largest freelancing, outsourcing and crowdsourcing marketplace by number of users and projects. We connect over 16,628,438 employers and freelancers globally from over 247 countries, regions and territories. Through our marketplace, employers can hire freelancers to do work in areas such as software development, writing, data entry and design right through to engineering, the sciences, sales and marketing, accounting and legal services.

(ASX:IVO) Invigor Group is a data analytics company with three core products. Insights Retail is a competitive market intelligence platform for retailers and brands. Shopping Ninja helps consumers find the best value across 100K+ products using their computer or phone. Insights Visitor is a consumer analytics and engagement platform for bricks and mortar spaces.

(ASX:IWG) The cyber security threat landscape is constantly evolving meaning that investment in defenses can quickly be overtaken by new and unforeseen threats. iWebGate Limited is reimagining a world where firewalls and virtual private networks are not used as the primary security and connectivity products by pioneering a new form of virtualisation technology. Their approach to cyber security minimises the exposure of networks to external and internal threats and can be seamlessly integrated into existing infrastructures requiring no hardware or changes in architecture. This innovative and patented approach has received global recognition (Global Security Challenge / National Institute of Standards and Technology) and is the first international company to be invited to join the Northrop Grumman Cync Program in the United States. iWebGate has recently listed on the Australian Stock Exchange and has established operations in the United States, Europe and of course here in Australia. Their local partnership with the Telstra App Market Place has seen their product suite being instantly accessible to the vast channel partner network around Australia.

migme Limited (ASX: MIG | WKN: A117AB) is a global digital media company focused on emerging markets. The company delivers social entertainment services through its portfolio brands migme, LoveByte, alivenotdead and Sold. migme has a freemium business model where it generates revenues from in-app purchases, which is a proven and successful model commonly seen in many global social networking and social gaming companies. migme has the requisite characteristics to create value for shareholders and is achieving accelerated growth via platform building, organic growth and targeted acquisitions.

Norwood Systems (ASX:NOR) is revolutionizing the delivery of high-quality voice telecommunications services for individual business travellers and organisations on a worldwide basis. The Company listed on the ASX on 16 June this year. Norwood has developed two breakthrough offerings, CORONA, for corporates, and World Phone, an App for individual travellers, which deliver the world's most advanced international fixed-line roaming solutions through local non-cellular networks, and reducing mobile phone roaming charges by more than 70%.

Peppermint Innovation Limited (Proposed ASX:PIL) is an Australian company who operates an established Mobile Phone Banking, Payments and Remittance Platform, and develop new and innovative mobile phone applications aimed at providing financial inclusion to the unbanked, improving business efficiency and deriving revenue for commercial clients and agent networks. Peppermint is focused on the commercialisation of this proprietary Mobile Phone Banking, Payments and Remittance technology with our initial efforts concentrated in the Philippines, a country with a population of circa 100 million people and 105 million mobile phones in use, where over 4 years has been spent developing and integrating this technology that is currently in use by three leading commercial banks. Peppermint aims to leverage a successful commercialisation strategy in the Philippines and build on established relationships in order to develop a commercial presence utilising the Mobile Phone Banking, Payments and Remittance Platform further across Asia and beyond.

(ASX:RFN) Reffind Ltd. Did you know the most successful hires are typically made through staff employee referrals? You know the best people in your industry because you've worked shoulder to shoulder with them. That's why we're redefining the job referral process. REFFIND allows you to share your company's job vacancies with your closest contacts. The best part is it means great rewards for you. Not only do you receive your company's referral fee should the candidate successfully gain employment, you'll also go into the draw for weekly prizes. All just for participating, and you can do it all in the time it takes to order your morning coffee. Refer your company's job vacancies, win prizes. Simple.

Rent.com.au Ltd (ASX:RNT) operates Australia's leading website and mobile platform dedicated purely to rental property. RNT actively creates the full rental marketplace which not only has agent listings but also targets the underserved non-agent landlord rental market. In Australia almost half of rental properties are not managed by property agents and this large market is still largely captured by print media which RNT aims to shift to online at www.rent.com.au.

(ASX:RAP) ResApp Health Ltd is developing digital healthcare solutions to assist doctors and empower patients to diagnose and manage respiratory disease. We are creating easy to use, affordable, clinically-validated and regulatory-approved diagnostic tools that only require a smartphone. Our solutions are designed to be easily integrated into existing telehealth solutions and we are also working on apps to provide respiratory disease diagnosis and management directly to consumers and healthcare providers. ResApp was founded in September 2014 to commercialise technology developed by Associate Professor Udantha Abeyratne at The University of Queensland that uses sound to diagnose respiratory disease. Associate Professor Abeyratne's team has been engaged in the research and development of this technology since 2009 and has been funded by the Bill and Melinda Gates Foundation.

Shark Mitigation Systems Pty Ltd (SMS) has evolved as a world-leading Perth-based technology company specialising in science-led technologies to help mitigate the risk of shark attack. These include the commercialisation of SAMS technology based on new science on shark visual systems developed in collaboration with University of WA for use in ocean apparel (wetsuits etc.) water craft (surfboards, skis etc.) and commercial marine applications. Currently the company is undertaking R&D and commercialisation of Clever Buoy, a near shore shark detection system in collaboration with Optus and Google. This technology has significant global application in providing beach users and researchers with critical location and environmental information to ensure our beaches are safer from shark attacks. With these two technologies, key global partnerships and worldwide profile and recognition, the company is positioned for major organic growth and acquisition opportunities in the area of marine technologies, beyond the shark-related domains.

SmartTrans Holdings Limited (ASX: SMA) is a mobile and online payments platform and logistics software provider operating in Australia and China. In China SmartTrans provides online billing systems, mobile applications and content for smartphone users with all three Chinese telcos, China Mobile, China Telecom and China Unicom, in addition to its billing services with the banks through UnionPay and AliPay. SmartTrans' billing platform provides the technology that allows app and content providers to bill customers directly to their mobile telephone account with one click, which is the preferred method for consumers to make purchases. Having secured 5,000,000 paying customers in 12 months in China, SmartTrans is well-positioned to continue to expand its revenue and reach in China and other markets for mobile apps and content. Through partnerships providing billing services to App and Content Providers in China SmartTrans is able to deliver Apps and content from China to the world. SmartTrans provides both in-app billing and monthly subscription billing with people subscribing to mobile content with customers paying monthly fees for finance news, auto information and movies content. SmartTrans has a growing and active customer base searching for additional mobile and physical products for which SmartTrans can provide marketing, online distribution and billing in China.

(ASX:SFI) Spookfish Ltd is focused on the development and commercialisation of premium next generation geospatial imagery products and services. By taking a clean sheet approach to overcoming the inherent limitations of legacy systems and disregarding what was thought impossible, our revolutionary technology enables rapid imaging of entire countries in high resolution from a multitude of angles at a fraction of the cost of contemporary systems. These unique capabilities will make it easy for governments and organisations everywhere to gain access to premium imagery content and pervasive 3D models to improve productivity and allow concise, accurate and cost effective decision-making.
